

Parking at Performances

Audience parking for performances at Faringdon Junior School is available at the Gloucester Street Car Park. Parking will also be available just inside the school gate for blue badge holders only and if weather permits.

For safety reasons, public parking is not available anywhere within the school grounds except for blue badge holders. Public vehicle access and parking is prohibited in the narrow private road leading to the school. Drivers are asked not to enter this road in order to drop off members of the cast or other passengers.

Access will be manned from half an hour before each performance and every car will be stopped. Hopefully this will help the local residents as well as make things easier and safer for all involved.

When possible the back gate will be open to allow direct access to and from the Gloucester Street Car Park. The route will be lit for evening performances when necessary and when possible. Please refer to our web site for a map of the route.

All FDS members whether involved in or coming to see the performance should also use the Gloucester Street Car Park. The only exceptions will be members of the crew arriving with heavy and/or bulky equipment to unload and if possible disabled badge holders. Can we ask the former to ensure that they do this well before doors open at 2pm/7pm as after this time the gates will be closed except for walking in. Also, after unloading could you please move your vehicle into the school playground and leave it there throughout the performance*, thus leaving the space available inside the gates for disabled parking and emergency access if required. Please take extra care when driving through the school and especially when passing through under the arch way.

* In the interest of safety any cars parked on the school playground may not leave at the end of the show until all of the audience have vacated the premises.
